PROFESSIONAL SUMMARY

Motivated and detail-oriented engineering student with a strong foundation in Full Stack Development and a passion for building innovative software solutions. Proven experience designing and developing functional web applications and a proven ability to apply theoretical knowledge to solve real-world problems. *Seeking a challenging role* to contribute to a dynamic engineering team.

SKILLS

- Programming Languages:** Python, JavaScript
- Web Technologies:** HTML5, CSS3, React.js, Node.js, Express.js
- Database Management:** MongoDB, SQL
- Development Tools:** Git, GitHub, VS Code
- Core Competencies:** Full Stack Development, Problem Solving, Data Structures & Algorithms

EXPERIENCE

Full Stack Developer Intern | VIP'S Tech

May 2025 – August 2025

- Conceptualized, designed, and developed a comprehensive Learning Management System (LMS) website, managing both frontend and backend components.
- Implemented crucial features including secure user authentication, course management (creation, updates), and efficient content delivery mechanisms.
- Utilized a technology stack of HTML, CSS, JavaScript, Node.js/Express.js, and MongoDB to build a robust and scalable application.
- Gained hands-on experience in the full Software Development Lifecycle (SDLC), from design to deployment.

PROJECTS

Learning Management System (LMS) Website

Technologies: HTML, CSS, JavaScript, Node.js/Express, MongoDB

- Developed a dynamic, full-stack LMS platform enabling seamless course and user management.
- Engineered key functionalities: secure student login, course enrollment, and an admin dashboard for complete control.
- Integrated frontend interfaces with backend APIs and a MongoDB database for smooth data flow.

Smart Health Surveillance & Early Warning System | Smart India Hackathon (SIH) 2025

Team Member (Backend Developer & Data Analyst)

- Collaborated in a team to develop a real-time health monitoring and early warning system.
- Contributed to data analysis, alert algorithms, and system development to detect potential health risks.
- Participated in the prestigious national-level hackathon, demonstrating problem-solving and teamwork skills.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering (Artificial Intelligence and Machine Learning)

Anna University, Chennai

Expected Graduation: 2027 | CGPA: 8.30

PROFESSIONAL DEVELOPMENT & WORKSHOPS

Building Smart Chatbots using RAG (Retrieval Augmented Generation)

VELAMMAL ENGINEERING COLLEGE | FEB 07, 2026

- Attended an advanced workshop on modern chatbot development techniques.
- Learned to integrate AI models with external data using RAG for context-aware and accurate responses.
- Explored real-world applications of AI in conversational systems.
